1. The Rostock (M 55/0 81) railroad repair shop is to be placed under the Directorate General, Shipping, Shipyards Division, on 1 January 1951. The equipment and the skilled workers of the shop were taken over by the management of the shipyard as early as 1 October 1950. *

25X1A

Comment. Primarily locomotives have so far been repaired at the Rostock railroad repair shop. The shipyard installations apparently do not meet the requirements of the five-year plan, so that the German State Railroads repair installation had to be turned over to the Shipping administration. 25X1A 25X1
